

Entry to the building is possible only for authorized persons with an EKD card or student ID card.

In order to grant authorizations, you should report to the manager of the Student Dormitories (room 018 SD Ziemowit) from 8:00 a.m. to 2:00 p.m.

The student ID card must be valid and undestroyed!

In order to ensure proper functioning of the device, please use it in accordance with the instructions.

Operating instructions:

Opening the entrance door to the building/room: apply the EKD card/student ID card to the reader located at the door. Wait until the green light appears on the device (**do not yank or pull the handle!**). A red or flashing light means no access or expiration of authorization.

To exit the room/building, press the "exit button", which is located on the wall near the exit.

In order to get the keys to the premises, the key must be collected from the depository located in the hall of the building.

Apply the EKD card/student ID card to the reader, which is located under the touch screen. Select the keys you want to collect by pressing on the names of the keys and confirm with the "Enter" button. After selecting a key, the door will release and the LED indicating the location of the selected key will illuminate. Remove the key ring and close the door of the depository.

In the event the key has already been taken by another authorized person, the screen will display the name in black, when this key is selected, the center of the screen will show who collected the key and when.
